

Scotch-Brite™

Red Floor Pad jumbo

For Spray Cleaning and Regular Maintenance

Technical data sheet

TD144. Date: February 2010

Supersedes: new issue

FG. Page 1 / 1

Description:

The Scotch-Brite™ Red Floor Pad is a premium quality floor maintenance pad, made of high quality synthetic fibre, in an open textured non-woven construction. Polishing particles are dispersed throughout and bonded with a durable adhesive.

Special Features:

- Designed for spray cleaning and regular types of maintenance
- Open web construction to collect soil from floors
- Fine fibre mix for effective removal of marks and fast polishing action on floors
- Flexible pad for easier washing after use
- Consistent performance
- Durable pad at work.
- Limited removal of floor finish

Where and When to Use:

RPM	150-500	1200
Strip		
Scrub	X	
Spray	XX	X
Buff	X	X

XX Designed for X suitable

Use the Scotch-Brite™ Red floor pad for routine spray cleaning with standard or high speed floor machines (150 - 500 RPM).

Directions for Use:

1. Install a clean floor pad under the machine pad holder
2. Dust mop entire floor area
3. Spray cleaning chemical moderately on a section of floor
4. Buff the area dry in 4 to 6 passes
5. Proceed to next section of floor
6. Dust mop entire floor area. Remove and wash after use.

Maintenance of pad:

1. Remove pad from machine after each use
2. Fold and scrub with a nylon brush under tap water or spray hose both sides or machine wash.
3. Hang up for drying. Do not use wet.

Note: machine washed floor pads will shrink about 20 mm after first washing cycle. Recommended washing-machine temperature is 40°C (higher temperature will decrease the life of the pad).

Performance Advantages:

Durability : 7 000 to 10 000 sqm at 150 RPM in standard use with appropriate maintenance.

Disposal Informations:

Discard into appropriate container, for incineration, if available.

Product Specifications:

Scotch-Brite™ Red Floor Pads consist of polyester fibre and synthetic adhesive. They are not significantly affected by water, detergents and cleaners normally used for floor maintenance.

Product Characteristics:

Colour: red
Marking: Black 3M logo on one side.
Thickness: 28.0mm
Centre hole: pre-cut at 85 mm
Weight: 1420 g/m²
Fibre type: polyester, mixture of sizes.

Aggressiveness (Schiefer Value):

(Test Method 3M/ST)

Expected value for spray cleaning operation: 0 to .25 g.

3M value: 0.1 grams

Standard Sizes:

Standard sizes of the jumbos are 0.98m * 32m.

Sizes may vary according to logistics and handling optimization.

Origin:

Made in France, ISO 9001-2000 certified plant
